ABOUT MYSELF

I am targeting Technical Support, Application Support and SaaS Support roles where clear communication, patience, troubleshooting and good documentation matter.

My background includes customer support, client services, data validation and operational work. I have worked with customers, internal procedures, documents, accuracy-focused tasks and daily problem-solving under pressure.

In parallel, I build small support-oriented software prototypes to better understand digital products from the user side: login flows, user actions, errors, documentation and product behaviour. This helps me communicate better with users and understand technical issues more clearly.

I am looking for a stable support role where I can learn the product well, help users, follow procedures, document issues and become reliable inside the support process.

WORK EXPERIENCE

● **Carrefour Romania SA** Adjud, Romania

Store Operations / Goods Handling

23/12/2025 - 12/06/2026

Supported daily store operations, including goods reception, stock flow, product availability, customer-facing routines and internal operational tasks.

Worked with scanners, reception documents, support-unit validation, stock-related processes and written operational communication.

Developed reliability, attention to procedure, clear internal communication and discipline under changing schedules, limited staffing and daily operational pressure.

● **Patimag Analina SRL** Adjud, Romania

Data Entry / Validation Operator

01/07/2024 - 05/09/2024

Entered, checked and processed operational data in accuracy-focused administrative workflows.

Worked with repetitive validation tasks where consistency, attention to detail and process discipline were important.

Strengthened careful checking, data accuracy and reliability in routine administrative work.

● **Raiffeisen Bank Romania** Braşov, Romania

Client Services Analyst

02/03/2020 - 14/09/2020

Handled customer requests and service issues in a regulated banking environment.

Worked with client communication, account and product questions, internal procedures and service resolution under time pressure.

Developed patience, accuracy, problem diagnosis and clear communication in high-volume customer-facing work.

● **CGS — Computer Generated Solutions Romania** Braşov, Romania

Technical Support Operator

25/11/2019 - 10/12/2019

Registered role: Technical Support Operator for Electronic Communication Services

Provided customer-facing technical support for electronic communication services.

Handled basic troubleshooting, user communication and support workflow tasks.

Gained early experience in explaining technical issues clearly to non-technical users.

EDUCATION & TRAINING

01/10/2024 - 30/06/2025

● **First-year coursework** Universitatea Transilvania din Braşov

Completed first-year coursework in Computer Science / Mathematics-Informatics.

Relevant areas: programming foundations, mathematics, computer science fundamentals and problem-solving.

Field(s) of study: Computer Science / Mathematics-Informatics

01/09/2014 - 01/06/2018 Adjud, Romania

● **Baccalaureate** Colegiul Naţional „Emil Botta” Adjud, Vrancea

Graduated from the Mathematics-Informatics profile.

Mathematics Baccalaureate exam: 9.70

3rd place, Mathematics Olympiad — Vrancea county stage, 2017.

Field(s) of study: Mathematics-Informatics | **Final grade:** 8.71
