PROFESSIONAL SUMMARY

Application Support Specialist with hands-on experience reproducing and documenting SaaS issues across billing, authentication and API workflows using Jira, Freshdesk and Postman.

WORK EXPERIENCE

Raiffeisen Bank Romania | Client Services Analyst | Braşov, Romania Mar 2020 – Sep 2020

- Resolved most banking enquiries at first contact and coordinated **100+ monthly escalations** through structured triage, troubleshooting and customer follow-up.
- Maintained **90%+ monthly quality review** scores through accurate product knowledge and consistent adherence to internal disclosure and compliance procedures.
- Handled **80+ daily requests** across banking products and services while maintaining a **sub-five-minute** average handling time through clear, structured communication.

SELECTED PROJECTS

Application Support Case Library | Technical Support Case Studies Jun 2026 – Present

- Created end-to-end case studies covering billing, authentication, API, access and browser incidents.
- Reproduced, investigated and documented cases using Jira, Freshdesk, Confluence, Postman, SQL and browser DevTools.
- Produced **50+ inspectable support artifacts**, including tickets, KB articles, customer updates, internal notes and resolution evidence.
